

Scott County Schools Department of Pupil Transportation welcomes everyone back to a new school year. School bus routing for the 2009-2010 school year will remain substantially the same as last year except routes that may be affected by residential growth and redistricting. All times are approximate and will be adjusted as necessary. Please note that transportation is not provided to students who are open enrolled. Special Education and kindergarten routes will be established per the registration in the various elementary schools. Questions about routing may be directed to 570-3010.
